PATENT RESPONSE

CONCLUSION

Applicant believes that pending Claims 1-22, 26-30 and 34 are in a condition for allowance, which Applicant respectfully requests.

Applicant believes this Response should allow the Examiner to allow the above-referenced patent application to issue as a U.S. patent without further amendments to the specification or claims. Thus, Applicant also requests notification to that effect.

If questions should arise, please telephone the undersigned attorney.

Applicant intends this authorization to be carried throughout the pendency of this Application, in full accordance with 37 CFR 1.136.

Respectfully submitted,
